Workshop 2: From Science to Start-up

Sonntag, 6. August 2023 10:00 (2 Stunden)

You have an idea or you see a problem and you are not yet comfortable with current solutions? Then this is your chance to make more of it! See how you can take the first step and turn your idea into a project! How do I develop an idea into a business model? How to find the right co-founders for my project? There is a lot of support! Where can I find it?

Be part of it and meet people who are also passionate about “doing”! Storytelling - but how?

How to put your projects in the right spotlight.
