

DBG's Eduard Strasburger Workshop - Co- and posttranslational control in chloroplasts

Monday 18 November 2024

Mon 18: Protein Structure and Evolution - Heereman'scher Hof (16:00 - 19:10)

-Conveners: Markus Schwarzländer

time	[id] title	presenter
16:00	[2] Welcome	
16:10	[47] Stages of phase-separation during biogenesis of a bacterial microcompartment	HAYER-HARTL, Manajit
16:50	[49] The evolution of assembly complexity in Rubisco.	HOCHBERG, Georg
17:30	Coffee	
17:50	[63] Unveiling the Multifaceted Machinery of N-terminal Protein Modifications in Plant Plastids	GIGLIONE, Carmela
18:30	[62] Identification, characterization and function of the unique N-terminal modifiers of the large subunit of plant Rubisco	MEINNEL, Thierry
18:50	[71] Dual lysine and N-terminal acetyltransferases as modifiers of Rubisco and CBB enzymes	MÜHLENBECK, Jens
