Podium discussion: Balancing quality control, inclusiveness, and efficiency in publishing

Donnerstag, 15. Mai 2025 11:30 (1 Stunde)

This discussion will revolve around two main themes:

- The high quality standards that we aim for with R2 will require considerable resources. How do we prevent lengthy review and reproducibility check times while still guaranteeing rigor?
- The core ideal of the journal is openness, but does this refer rather to the mandate of open data or to the inclusiveness and understanding brought forward to somebody who could risk their career in publishing a dataset that took years to create?

Vortragende: Dr. RÖSELER, Lukas (Münster Center for Open Science); Dr. WALLRICH, Lukas (Birkbeck Business School, University of London); Prof. SAAM, Marianne (Universität Hamburg); Dr. ADLER, Susanne (University of München); Prof. EVANS, Thomas Rhys (University of Greenwich)
