

European Lunar Symposium 2025

Freitag, 27. Juni 2025

Polar Exploration - Aula (08:30 - 10:00)

-Vorsitzende der Sitzung: Lukas Wueller; Jessica Flahaut

time	[id] title	presenter
08:30	[104] Scientific Context for Reviewing Planetary Protection Protocols for the Exploration of the Moon	ANAND, Mahesh
08:43	[105] ShadowCam: Shallower Small Craters in Lunar Permanently Shadowed Regions	SPEYERER, Emerson
08:56	[106] Poleward Dips in Radar Circular Polarization Ratio (CPR): Observations and Potential Causes	THOMSON, Bradley
09:09	[107] Detecting and Characterizing Water Ice in Permanently-Shadowed Lunar Regions Using a Three-Band LIDAR	CLOUTIS, Edward
09:22	[108] Seismic Interferometry for Detecting Ice-Bearing Rocks on the Moon	KEIL, Sabrina
09:35	[109] What Lies Beneath: What Largest Ejected Boulders Tell us About the Substrate	CARTER, Winston
09:48	[110] MOONIS: The Spectrometer on Rashid Rover to Explore the Lunar South Polar Regions	ROSSI, Lorenzo
