

European Lunar Symposium 2025

Donnerstag, 26. Juni 2025

Magmatism Posters - Geomuseum (17:00 - 19:30)

[id]	title	presenter	board
[159]	LunarLeaper – Unlocking a Subsurface World	MITTELHOLZ, Anna GROTT, Matthias	
[160]	DaedalusCAM - An Innovative Exploration of Lunar Lava Tubes	MASSIRONI, Matteo POZZOBON, Riccardo	
[161]	Experimental Investigations on Mineral-Melt Partitioning Behaviour of Trace Elements at High Temperature Conditions: Implications for High-Titanium Lunar Basalts	TYAGI, Vaishvi	
[162]	Ages of Small-Scale Maria in the Poincaré Basin	STARCKE, Alicia	
[163]	Magma Ocean Crystallization and its Consequence on the Thermochemical Evolution of the Moon	BERNT, Irene	
[164]	Morphometric Analysis of Lunar Pits and Robotic Mission Design for In-Situ Exploration	MERKVILADZE, Demur
