

Science Diplomacy and the work of physicists for Peace and disarmament: The Pugwash Conferences on Science and World Affairs

Samstag, 15. November 2025 16:00 (45 Minuten)

Physicists had a major share to build nuclear weapons and tried to prevent their use in the aftermath of World War II during the Cold War and beyond. They worked as advisors, diplomats and advocates for governments, the civil society and the international community.

Vortragende(r): Prof. NEUNECK, Götz (Chair of the Pugwash Council & Chair of the Federation of German Scientists)
