

Programm der Sitzung

20.-25. Sept. 2026

EUROPEAN
PALAEOBOTANY AND
PALYNOLOGY CONFERENCE
MÜNSTER

European Palaeobotany and Palynology Conference 2026

***Embracing plant taphonomy: Biostratinomy,
diagenesis and actuopalaeobotany***

Münster
Fürstenberghaus, Domplatz 20-22, 48143 Münster

Di., 22. September

16:00

Embracing plant taphonomy: Biostratinomy, diagenesis and actuopalaeobotany

Sitzung | **Ort:** Fürstenberghaus, Auditorium F5 | **Vorsitzende:** Lutz Kunzmann, Carole Gee

16:00–16:15 Uhr

Space, Taphonomy, and Time: Factors Controlling Interpretations of Deep Time Continental Ecosystems

Sprecher

Robert Gastaldo

16:15–16:30 Uhr

Ecological traits of Paleogene lichens preserved in amber

Sprecher

Alexander R. Schmidt

16:30–16:45 Uhr

Fossil Hamamelidaceae flowers provide first unequivocal record of the family from Eocene Baltic amber

Sprecher

Josephine Franke

16:45–17:00 Uhr

The Socorridos Lagerstätte: a window into the insular Late Miocene flora and vegetation of Madeira Island, Portugal

Sprecher

Carlos Góis-Marques

17:00–17:15 Uhr

The forgotten Sarmatian fossil Lagerstätte of Radoboj (Croatia): evidence for near-tropical conditions during Mid-Miocene cooling

Sprecher

Thomas Denk

17:15–17:30 Uhr

Taxon-specific epicuticular wax preservation on Eocene leaves - new insights into whitish fossil layers

Sprecher

Asude Demir

17:30
